

The background features a vibrant blue color palette with various geometric and organic shapes. In the top-left corner, there is a large, solid orange circle. A diagonal band of a lighter blue shade runs from the top-left towards the bottom-right. On the right side, there is a large, faint circular pattern composed of many thin, concentric white lines. The overall aesthetic is modern and professional.

Engage Your Employees In Decision-Making And
Boost Satisfaction With Weeve

Looking for cutting-edge technology to empower your employees to share what they think about your company? Eager to generate the necessary insights to give your staff a voice and increase engagement? Check out Weeve's innovative platform!

The Austin, Texas-based company has developed a platform providing managers with real-time employee engagement data to help them sustain the future of work.

With the solution, Weeve aims to help organizations around the globe to create a human-centered corporate digital environment by giving HR a key role in driving technology innovation.

The platform allows employees to share their experiences at work, delivering actionable insights that decision-makers can use to make meaningful changes to increase productivity.

A major advantage of the platform is its capability to sift out data generated through conversations to produce relevant information with practical value.

The cutting-edge software can filter critical data about employees' emotions, challenges, needs, motivation, and commitment that can help reveal organizational gaps to be gradually filled by HR.

Conversations within the platform are led by Kim, an AI chatbot that can be integrated into multiple messaging applications to allow your employees to share anonymously their thoughts twenty-four hours a day, seven days a week.

Weeve offers a wide array of pre-built topics that your employees can use to conduct human-like conversations with Kim or have a custom chat on any subject.

The background is a solid dark purple color. On the left side, there are several concentric circles of a lighter purple shade, creating a ripple effect. In the bottom-left corner, there are three solid circles of a reddish-orange color, of varying sizes, partially overlapping each other.

In today's digitalized world, where information is instantly available, employees seek guarantees that they have a voice in the workplace and expect from management to actively listen to what they want to say.

Outdated HR processes are no longer effective in modern, people-focused organizations seeking to advance their digital transformation and create a strong workplace culture.

By digitalizing HR processes and streamlining feedback gathering, companies manifest their willingness to proactively involve staff in corporate decisions and make appropriate changes.
